HIGHLAND PARK, MICHIGAN HOUSING AUTHORITY
DECONCENTRATION POLICY STATEMENT
IN AGREEMENT WITH THE QUALITY HOUSING
AND WORK RESPONSIBILITY ACT OF 1998.

The Quality Housing and Work Responsibility Act of 1998, also known as QHWRA, requires that public housing agencies establish and utilize income-mixing criteria for the selection of residents for dwelling units in public housing developments. This policy would assist the Department in meeting its Deconcentration objectives and provide increased housing choices.

This policy is established based on a Deconcentration and income mixing analysis and is being implemented in a manner that does not prevent or interfere with the use of a potential site-based Waiting List. The Deconcentration and income-mixing plan does not impose or require any specific income or racial quotas for any project or projects. The Deconcentration objectives are consistent with QHWRA targeting objectives. Not less than forty percent of public housing units made available for occupancy in any fiscal year to eligible families shall be occupied by families whose incomes at the time of commencement of occupancy do not exceed thirty percent of the area median income. The Highland Park, Michigan Housing Commission expects to exceed the forty- percent threshold because ninety-four percent of the families on its Waiting List are within the extremely low-income range (less than or equal to thirty percent of the average median income). The objectives of the Highland Park, Michigan Housing Commission's Deconcentration Policy were adopted after a careful review and analysis of its Waiting List data and a comparison was made with its Residents Characteristics Report and the Residents Characteristics Report for the HUD Detroit, Michigan Field Office. The CHAS and the Consolidated Plan of the local government was consulted to determine if the data produced by Waiting List Analysis mirrored the Needs Assessment data found in the previously mentioned documents. See data below:

HIGHLAND PARK, MICHIGAN HOUSING AUTHORITY
DECONCENTRATION POLICY STATEMENT
IN AGREEMENT WITH THE QUALITY HOUSING
AND WORK RESPONSIBILITY ACT OF 1998.

The Admissions Policy for Deconcentration must achieve its objectives through incentives and personal choice of the family. The Highland Park, Michigan Housing Commission's Waiting List Administration policies and procedures ensures that families are provided with adequate choices, thereby increasing the likelihood of occupancy within a unit of family choice without the threat or the reality of adverse action. Notwithstanding, QHWRA permits the Highland Park, Michigan Housing Commission to skip a family on its Waiting List to reach another family to implement its Deconcentration policy without that act being considered an adverse action. This protocol is particularly useful when considering candidates for its Scattered Sites units (single-family homes).

HIGHLAND PARK, MICHIGAN DECONCENTRATION PROCEDURES

1. Conduct income assessment of candidates.
2. Determine and compare the relative tenant incomes of each development to the average income of the public housing participants.
3. Identify what admissions policy measures or incentives, if any, are needed to align the development income mix with the income mix of all public housing participants.
4. Ensure that such measures and incentives affirmatively further fair housing.
5. Make any appropriate changes to the admissions policies.
6. Implement measures and incentives to achieve stated Deconcentration goals.
7. Monitor results and suspend measures and incentives when on goals are met .

In attaining its Deconcentration objectives, the Highland Park, Michigan Housing Commission will prioritize its preference measures and incentives:

1. Measures to increase employment and higher wages of families in lower income developments including job-training opportunities to be implemented in conjunction with its Community Partners.
2. Incentives for Relocated families that will result in increased percentages of Deconcentration in successive income limits that were not previously observed.
3. Offering Deconcentration incentives and measures to the new admissions on the waiting list only to the extent that targeting goals are met and skipping is essential to attain

Deconcentration goals.
